

BLOCK FW Award

Fort Washington Elementary School

2020-2021

Philosophical Statement

Fort Washington's BLOCK FW Award serves four functions:

- To motivate students to become active participants in the activities of their school;
- To provide a blueprint for parents and teachers in planning, encouraging and setting goals with children regarding school involvement and achievement;
- To reaffirm the importance of being responsible, well-rounded individuals and establish a definition of what that is; and
- To provide a form of recognition for students who have met the criteria for the award.

Overview

The BLOCK FW Award is available to 4th, 5th, and 6th grade students and is awarded at the end of the school year. The criteria for earning this award reflect a broad base of participation, achievement, and service. In order to earn the award, a student must complete a minimum number of items in the following categories:

- Mind – Scholarship
- Mind – Co-Curricular
- Body – Athletics/Fitness
- Spirit – Student Leadership/Community Service

It is our hope that all students will actively pursue this award, making it a part of their planning for their total school experience. Whether or not the student actually receives the award, striving for it will enrich and enhance his/her educational foundation.

In the sections that follow, specific guidelines and requirements governing the earning of checks in each category are discussed. We encourage parents to work closely with students in planning and setting goals.

CODE OF PARTICIPATION

Co-curricular activities are a vital part of our total school program. In addition to providing a variety of exploratory and enriching learning experiences for students, they are important also in building character and shaping attitudes. When students elect to participate in a co-curricular program (e.g., choir, sports, etc.), they must recognize that they have assumed certain responsibilities and obligations to the coach or advisor, to the other members of the activity, and certainly to themselves. The school allocates considerable resources in terms of time, money, energy, and personnel in an effort to provide quality co-curricular programs for our students. In turn, we encourage students to participate and expect quality participation from those who do take part in the activities.

Our major co-curricular programs have "participation contracts" stating what is expected of the participant. Students agree to the stipulations upon joining an activity. In essence, the terms of these "contracts" reflect the following CODE OF PARTICIPATION.

1. The participant will maintain a satisfactory level of scholarship ("C" average, with no "F"s) and demonstrate satisfactory behavior and citizenship.
2. The participant is expected to abide by the practice, meeting, or rehearsal schedule established for the activity. Certain absences or tardies may, of course, be excused as with classroom attendance. However, the participant has the OBLIGATION to clear these with the coach or teacher in charge of the activity. Failure to do so is grounds for disciplinary measures as in the case of tardiness or truancy from the classroom.
3. The student is expected to participate in the activity in a positive manner. That is, the student is to show proper conduct, strive to learn and grow in his/her abilities or skills, and contribute to the group effort to the best of his/her ability.
4. The participant is expected to respect and properly care for all property and/or equipment issued in conjunction with the activity. This is especially pertinent to members of athletic teams who are issued uniforms. Team uniforms are the property of the school. They are expensive and difficult to replace. Students who NEGLIGENTLY lose or cause UNDUE damage to such school property will be charged for its replacement.
5. The participant will not arbitrarily or unilaterally quit an activity. Normally, there is a one-week "grace" period during which the student may join an activity and decide if he/she wishes to continue. A student may drop the activity during that time with no conditions. After that time, the student may drop the activity only after consultation between the parent and the coach/advisor and a conference between the student, coach/advisor, and the principal. In the case of athletic teams, a student who drops a sport after the grace period may not join another team during the same season. Note, however, that if a student joins, say, the football team and drops DURING the grace period, he/she may join the cross-country team.
